Check bills on-line:

The clean, efficient table data format shows all aspects of your bill.

If you have more than one Iridium phone on your account ALL of these can be accessed simultaneously - enabling easy account management.

- **Type of call:** Iridium to Iridium, Iridium to PSTN, Data (Internet calls), Iridium Incoming calls.
- **Number of calls:** Lists number of calls made in billing period
- **Call Charges:** Showing charges for the various services accessed, a useful tool to help budget your account.
- **Monthly Totals**
- **Total Airtime used**

The latest information:

The Billing system is the gateway to Global Satellite user services. We are constantly working to keep our customers up to date with the latest developments in our services.

Using the billing system you can access various members only features such as

- **Set up and manage an optional dedicated Globalsatellite.us email address.** Available as a paid option this service allows you access to your email through our 'speedmail' system. view all your emails in list form quickly BEFORE downloading them, This enables you to filter out unwanted or large messages, thus cutting down immensely on connection time.
- **Software updates:** Linked directly to Iridium, this feature allows users to download/upgrade Iridium system software quickly and easily.
- **Billing reports:** Simply enter your email addresses and have
